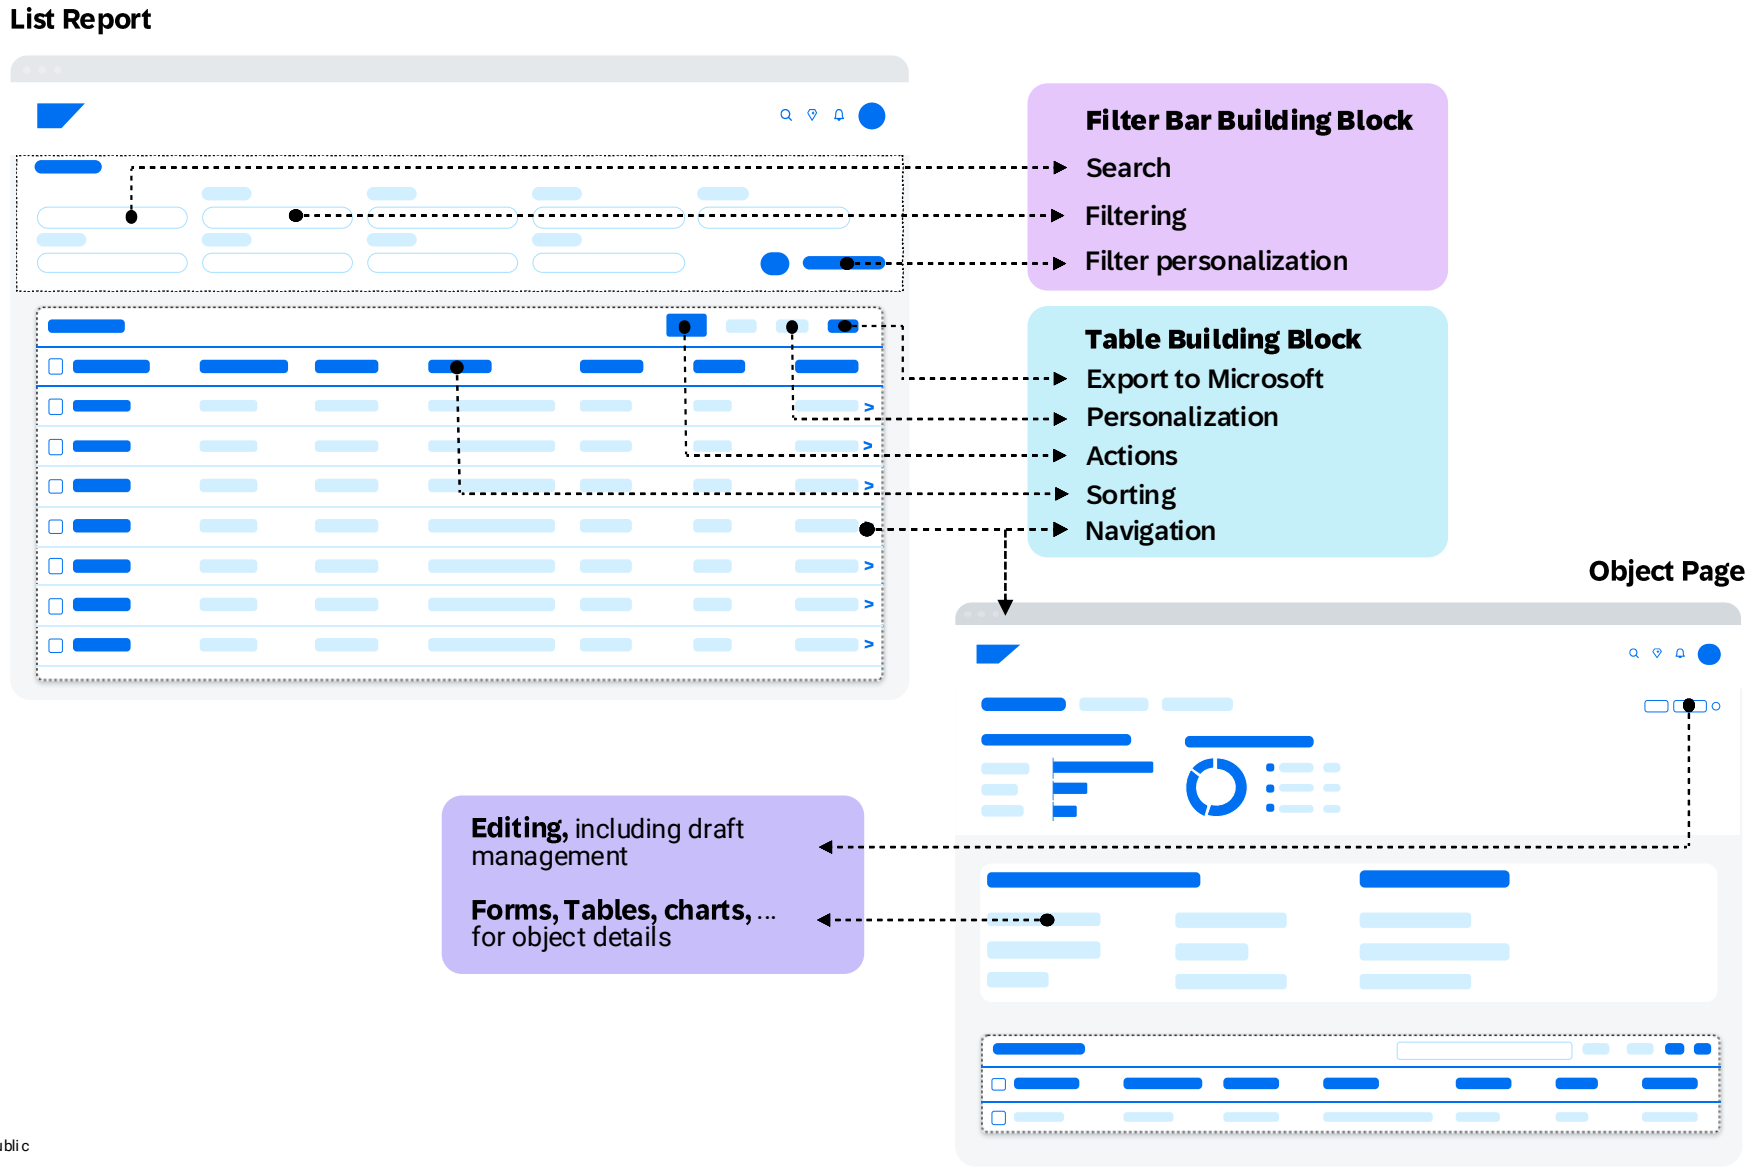
SAP Fiori elements provides enterprise readiness from the start



Readiness features

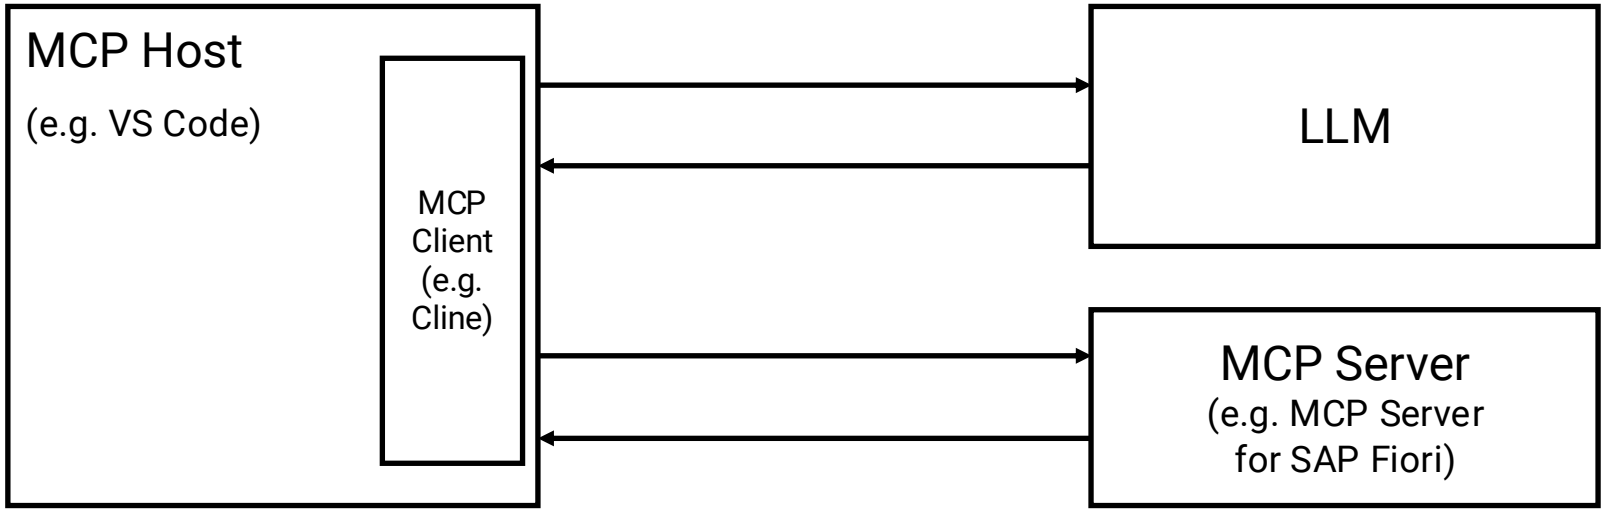
- Accessibility
- Internationalization
- Mobile compatibility
- Responsiveness
- Performance optimizations
- Integration
- Security checks
- Lifecycle stability
- Test automation support
- And more

MCP Server at SAP

Challenges of using AI in a development project

- LLM uses outdated information
- LLM creates artefacts from scratch
- LLM does not use domain specific best practices
- LLM generates code which does not work

Model Context Protocol (MCP) servers – offer expertise to LLMs



Tools	Help with deterministic creation and modification of projects
Context	Information about projects and related objects
Guidance	Up-to-date documentation and SAP best practices for AI-assisted development tasks

→ Goal: Reduce errors, iterations, and token-usage

MCP servers from SAP for developers

Availability

- Open source
- As node modules on https://www.npmjs.com/
- Overview blog

MCP server for CAP

- Development of CAP applications

MCP server for SAP Fiori

- Create or modify SAP Fiori elements applications

UI5 MCP server

- Creation of new UI5 projects
- Detect and fix UI5-specific errors in the code

MCP server for mobile development kit (MDK)

- Create or modify MDK based mobile apps

MCP for RAP

- Planned for Q2/2026

Demo

Further topics and outlook

- Development for and with MCP servers
  - Documentation, e.g. separation of OData V2 and V4 from SAPUI5 1.145 – available
  - Collaboration with ABAP, Service → UI with MCP support
- SAP Fiori tools and AI
  - Project Accelerator now also for RAP as of ABAP Cloud 2602 – available
  - Support for SAP Fiori elements-specific validation, incl. MCP
  - Generation of automated tests, incl. MCP
  - Focus on ABAP-based UI development in VS Code

AI-assisted app development

Key takeaways

- When used correctly, AI increases productivity in development
- MCP servers and rules help reduce errors and costs
- SAP provides open-source MCP servers for end-to-end development from service to UI

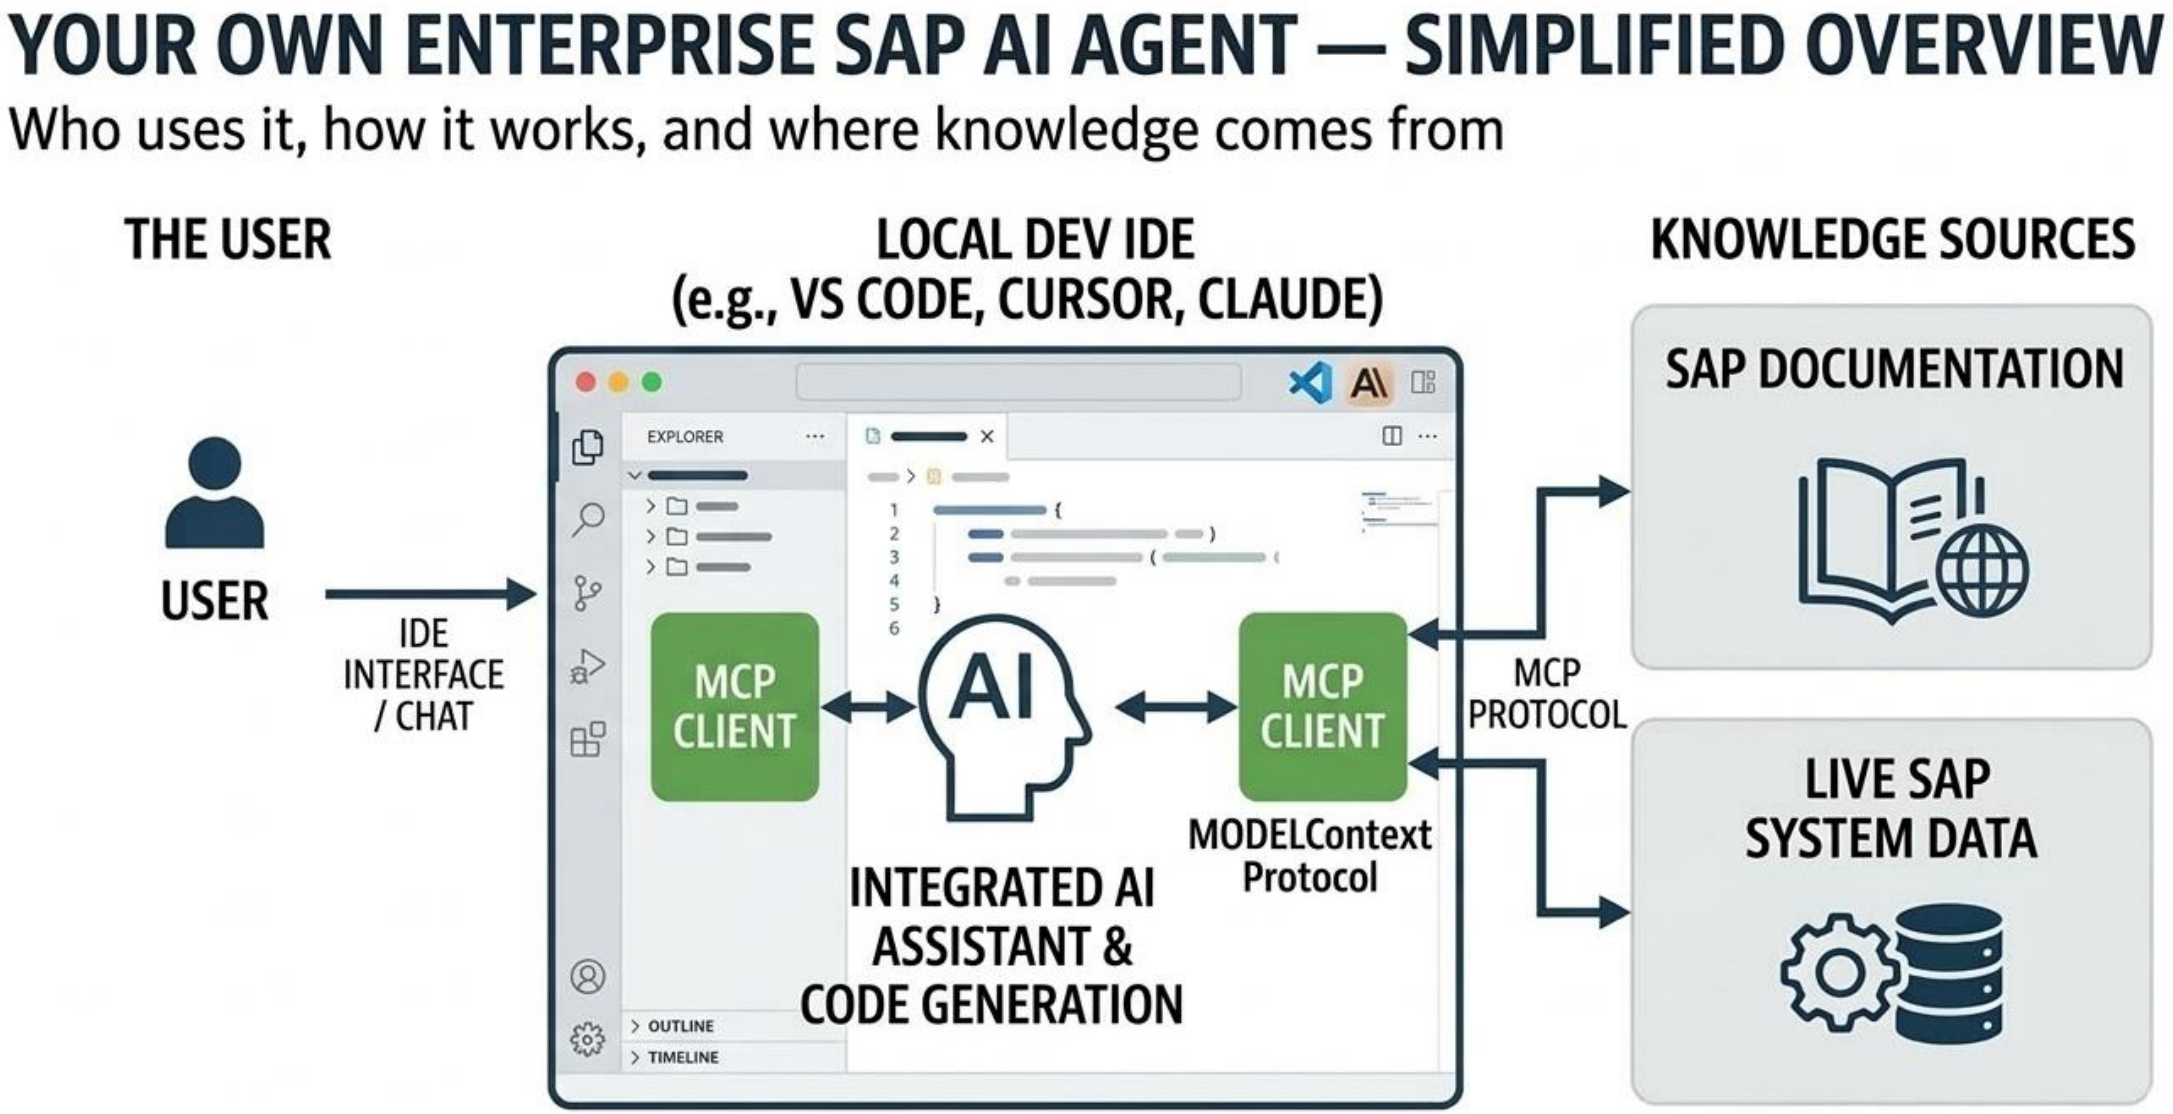
SAP Development with MCP Server



SAP AI IDE Development with MCP Server

Cursor

- in my list report extension set the filter value greater then 01.01.2000 and for the root entity check if all fields are on the object page use mcp sap docs to make sure that you understand the ui5 and cap apis and check for best practices

Eclipse

- add a new method to multiply a number by power of two to the class

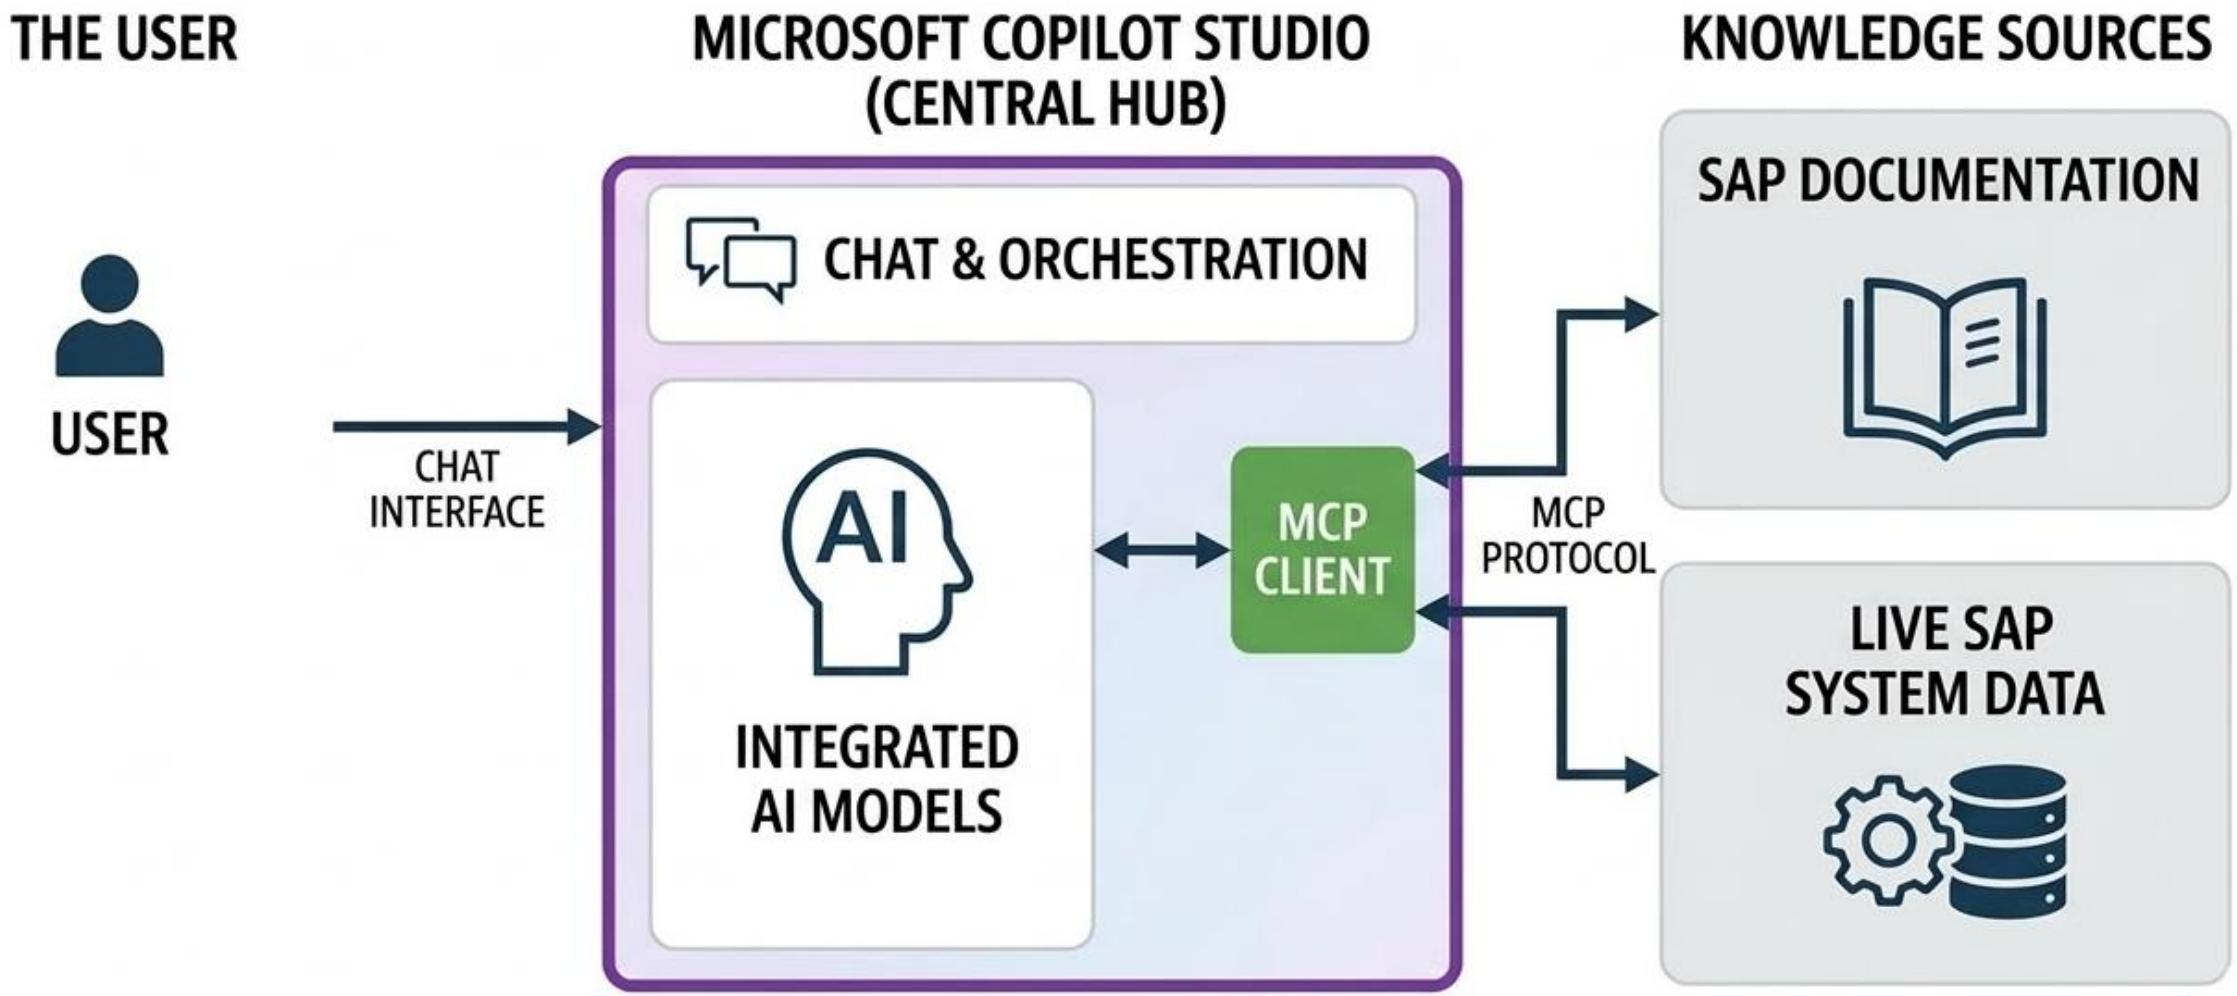
Claude Code

- überprüfe **demo_cr_car_rental_initialize** und deren includes in meinem sap system auf best practices und clean core mittels SAP Docs MCP Server und vor allem sap_get_object_details überrpüfe im im detail die genutzen objekte
- komme zurück mit einem report, bewertung und empfehlungen wie es gixed werden kann

Cursor

- in my list report extension set the filter value greater then 01.01.2000 and for the root entity check if all fields are on the object page
- use mcp sap docs to make sure that you understand the ui5 and cap apis and check for best practices

SAP AI Agent with MCP Server



SAP AI Agent with MCP Server

Beispiel Prompts:

- ich habe ein dokument im sharepoint für meinen football service eine anforderung, bitte zeige mir wie die implementierung aussehen könnte

Bitte **bewerten** Sie diesen Vortrag online in der **DSAG-Event-App!**
