DSAG-Jahreskongress 2024

Ways to build your SAP Fiori apps

SAP Fiori elements

Floor plans

Best way when desired app is close to a standard pattern

- Reduce time and coding to develop and maintain apps
- · Match look and feel of apps that SAP ships

SAP Fiori elements: Flexible programming model

Building blocks

Best way to add standard functionality to a custom page

- · Speed development by using prebuilt blocks
- Combine building blocks for more complex designs

Freestyle SAPUI5

SAPUI5 controls

Best way to have full control of every item on the screen

- Allow complete customization of your app
- Shift more maintenance of the app to the dev team

Efficiency

Flexibility ———
